Stilo

WHY STILO?

The name Stilo comes from the tool used by the Bronze Age to write, to imprint their first thoughts, their first ideas, their first concepts. In time the word "stilo" evolved in "style", that is the way each person uses a stilo: your own style. And our style is that of making products that leave a mark, exactly like a stilo in our ancestors wax boards.

OUR PHILOSOPHY

Top functionality. Everything a driver needs must be standard feature: intercom, connections, earmuffs, drinking system, etc.

1999

- Foundation

2000

- First helmet sold
- Origin of the WRC, the world's first open-face helmet designed around the intercom

2003

- First company worldwide to create a Bluetooth intercom for motorbikes

2004

- Debut in the World Rally Championship with Gilles Panizzi

2005

- First World Rally Championship victory with Sébastien Loeb

2008

- Birth of the ST4: Stilo professional helmet for racing. The world's first FIA8860-2004 certified racing helmet with earmuffs and integrated drinking system

2009

- Stilo develops ST-30, the world's first intercom featuring 2 circuits, one in use and one for backup
- First World Touring Car Championship victory with Gabriele Tarquini

2010

- Launch of the WRC DES, world's first FIA8860-2004 certified open-face helmet
- New operations office in 2.000 sq. m area. Energetically self-sufficient, carbon neutral on the environment
- Launch of the ST30-DES, world's first rally intercom with Bluetooth technology for mobile telephones connection

2011

- Stilo designs ST4 Zero and WRC DES Zero, world's lightest FIA 8860 certified helmets, both full face and open face
- Verbacom launch: the very first communication system for racing with Bluetooth technology for mobile phone connection

2012

- Stilo into the Rally Legend: eight World Champion title won with Sébastien Loeb and Citroen
- Stilo wins the GP2 main series with Davide Valsecchi

2013

- Stilo develops the world first rally intercom with digital noise cancellation that debuts with Volkswagen winning the World Rally Championship in Sébastien Ogier's Polo WRC

2014

- Birth of ST5, designed to be the benchmark in full-face helmets
- DG30, DG10 the world's first rally intercoms with noise digital active cancellation

2015

- Stilo officially debuts in F1
- Update to the new homologation standards FIA 8859-2015 and Snell2015
- Stilo wins the 24h of Le Mans with Porsche - LMP1

2016

- Stilo becomes part of the Simpson Performance group based in the US
- New racing communication system via radio for the PCCA championship
- Romain Dumas wins the 24h of Le Mans and the WEC title with Porsche LMP1
- Jimmie Johnson of Hendrick Motorsports Champion of the NASCAR Sprint Cup Series
- 4th WRC title won with Volkswagen Motorsport and Sébastien Ogier

2017

- In Formula 1 with Valtteri Bottas Mercedes F1 Team and Jolyon Palmer Renault F1 Team
- Earl Bamber wins the 24h of Le Mans and the WEC title with Porsche LMP1
- 5th WRC title for Sébastien Ogier and 1st for M-Sport. It's the 13th title in row for Stilo

2018

- ST5 Zero VB is the first FIA 8860-2018 certified helmet and Valtteri Bottas is the world first driver to wear a FIA 8860-2018 ABP helmet during the Spa GP
- WRC DES, ST5, ST5 ABP: the whole range updates to the new FIA 8860-2018 standard
- Filipe Albuquerque wins Daytona Rolex 24H with Audi Sport Team wearing ST5 Zero
- Stilo implements wireless technology in rally communications

2019

- Stilo becomes Official Team Supplier to Mercedes-AMG Petronas Motorsport in the FIA Formula 1 Championship
- Stilo is Official Helmet Supplier to Porsche Motorsport
- 1st WRC title for Ott Tanak and Tommi Makinen.15th in a row for Stilo
- Stilo is Hyundai Motorsport Customer Racing Official Supplier
- Nyck De Vries is Formula 2 Champion with ART
- New ST5 CMR with the extra-small shell and new colours and designs for the karting range

2020

- Stilo wins the 15th WRC title in a row with Ogier and Ingrassia celebrating the 7th WRC title

2021

- Launch of the new Venti WRC open face helmet range, celebrating Stilo's 20th anniversary
- 16th WRC title in a row with Ogier and Ingrassia signing their 8th title wearing the new Venti WRC
- Nyck De Vries becomes World Champion winning Formula E
- Stilo develops and presents the Wireless communication technology, taking communications in rallying to a revolution
- Stilo and Simpson join The Holley Group, publicly listed in the stock exchange

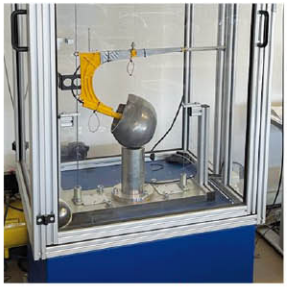
2022

- Felipe Drugovich is Formula 2 Champion with MP Motorsport
- Nyck De Vries debuts in the FIA Formula 1 Championship on occasion of the Monza GP with the Aston Martin F1 and adds up to Valtteri Bottas - Alfa Romeo ORLEN F1 Team and Lance Stroll - Aston Martin F1 Team
- 18th WRC title in a row with Kalle Rovanperä and Jonne Halttunen signing their 1th WRC title
- Official Team Supplier to TGR Motorsport in the WRC, winners of the WRC
- Dakar winners with Nasser Al-Attiyah and Mathieu Baumel

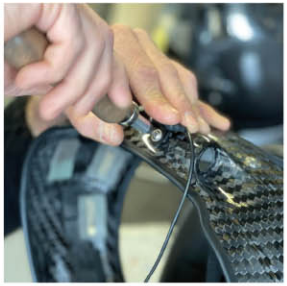
MADE IN ITALY

The engine at Stilo is fueled by the constant search for innovation through the highest technologies and a passion for motorsport with its unstoppable evolution. A helmet is part of the safety equipment to the driver and is meant to be as safe as possible in the first place but it can be something more: an element of performance.
Stilo helmets are designed, developed, prototyped, tested and produced in Italy with a KM 0 philosophy, **100% made in Italy**.

Starting from the driver's needs in the great variety of motorsport racing activities, Stilo **Research and Development** Department combines the **know-how** built from experience with the use of **aerodynamics materials** and the most **advanced technologies**, creating new projects and working to never stop evolving. Highly qualified personnel work in Stilo **internal laboratory** and our **carbon shop** to make prototypes, crash tests and pre-series production following strict procedures.



Each Stilo helmet is **fully hand-made** by specialised workers in Bergamo, starting from the shell and all the way down to the labelling of the helmet before shipping. Every step of the production procedures is prepared with the utmost care and strict **quality controls** are in place before and during the whole process.



All of this to offer the safest helmets, with accessories, features and functionalities that make sure our products are a perfect fit for each seat.

WIRELESS COMMUNICATION

WL-10 Wireless Intercom is the next step in rally intercom technology as connection, as the name describes, is now completely wireless with the crew's helmets. Based on the world's active digital noise-cancelling Stilo DG10 intercom, the WL-10 Wireless has had a few more improvements making this the ultimate in motorsport communications and the worlds first wireless intercom for rallying. Design and functionalities have been fine-tuned allowing the best noise-cancelling intercom on the market. An additional extra is a wireless headset for use on-road sections.

Shaped to be perfectly integrated with the geometry of the helmet

Power and volume controls

To be plugged directly to the side port of the helmet

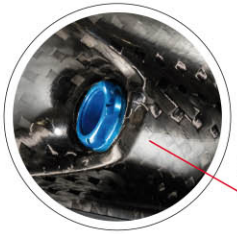
WL-KEY AG0001

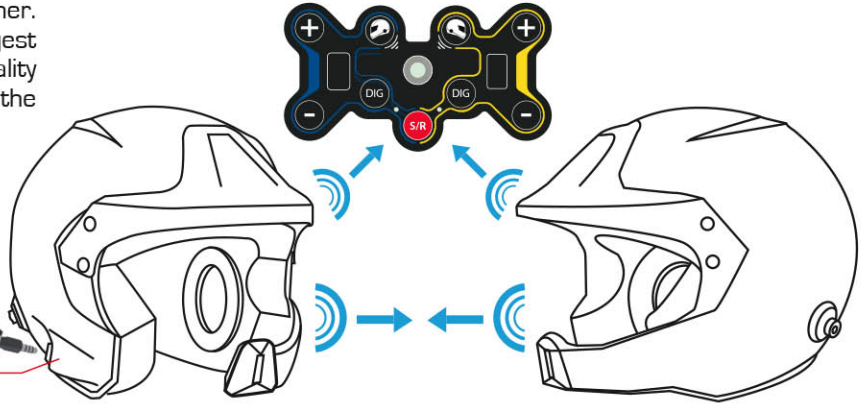
WIRELESS

The Wireless helmet keys and headsets have their own battery which when fully charged has enough power to allow up to 5 hours of continuous talk time. Charging of these items is through a USB plug. These keys have been designed to plug directly into the Venti WRC, Venti Trophy Plus and ST5R WL helmets.

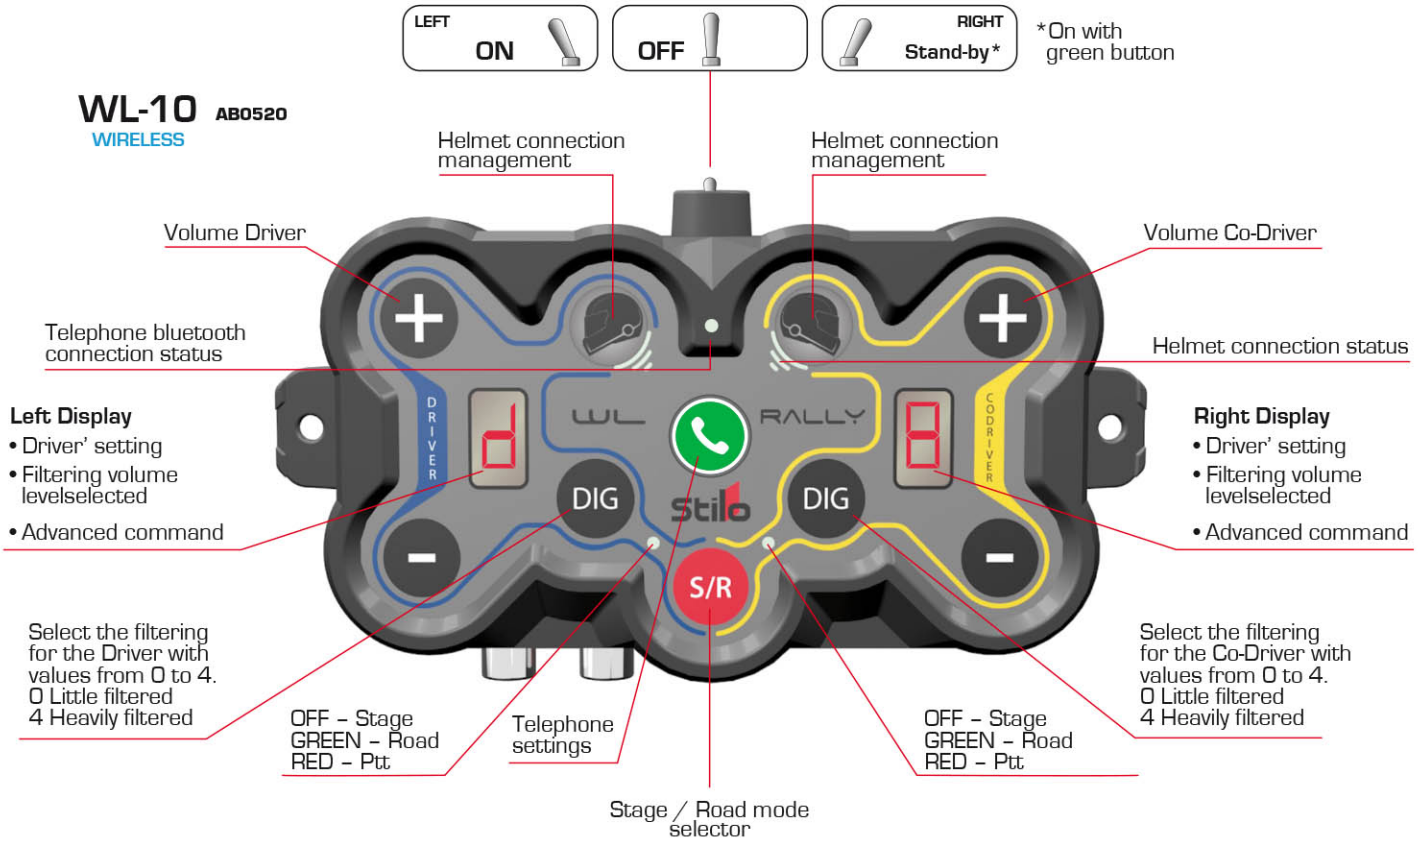
HOW IT WORKS

The helmet key is plugged into the helmet side port and paired with the intercom, allowing the connection to work up to a 10 metres distance, this allowing the crew to exit the car with their helmets on and still talk to each other. Powered from the car's 12 volt supply the biggest change in this intercom is the Wireless functionality allowing you to drop the connection cables with the crew's helmet.





- Keyboard with all the features of our DG 10 intercom
- No cables to the helmets



WL-10 AB0520

WIRELESS

AG0001

The bundle includes
1 WL-10 intercom (AB0520)
and 2 wireless helmet keys
WL-KEY (AG0001)
paired and ready to use

AD0225

Wireless headsets
for use on-road sections

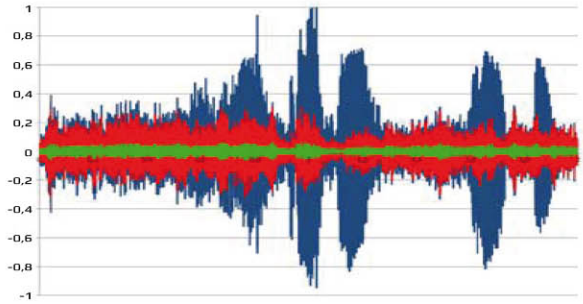
The WL-10 features 1 output for the crew's communications to a camera system and 1 input for a radio interface.

CG0020 Radio interface for for WL-10 - Universal

CG0021 Radio interface for for WL-10
Prepared for connections with radio cables (YD0202 to YD0211)
PTT cable YC0011 included

THE WORLD FIRST DIGITAL INTERCOMS

How does it work? Digital, unlike the limited capabilities of old analog intercoms, has the capability of active digital noise cancelling, which in a millisecond can separate the vitally important sound of the drivers voices from the excessive bad noises of the engine, transmissions and road surface and filter these right down while improving the more important sound of the communications between driver and co-driver.



DG - 30

- Digital active noise cancellation with SDA filter
- Separate main intercom box which can be positioned under the seats to offer a lower center of gravity
- Remote control panel
- Integrated Bluetooth module
- Camera and radio connections

MAIN UNIT

REMOTE CONTROL PANEL

AB0601
DG - 30 Bluetooh
Remote control panel
and main unit

YB0600.2
Helmets connection
cable (not included)

DG - 10

Developed directly from DG - 30: same digital active noise cancellation with simplified functions

- Digital active noise cancellation with sda filter
- Integrated bluetooth for mobile phone connection
- Camera and radio connections
- Helmet connection cables integrated

AB0500
DG -10 Bluetooh

CG0013 Radio interface for DG-10 intercom
CG0014 Kenwood radio interface for DG-10 intercom - YC0001 PTT included
CG0017 Motorola radio interface for DG-10 intercom - YC0001 PTT included
YY0030 Isolating Filter for DG-10 intercom (1 IN / 2 OUT RCA)

WRC DES 9V

The best of Stilo's analogic noise cancellation available thanks to the "Extra Filter". Fed from the car power supply and 9V battery. Bluetooth connection with mobile telephones not available.

AB0214

- The best analogic Stilo audio quality and the maximum ease of use at a price with no equal
- Camera or Radio connection
- Powered by a 9 volt battery or fed from the car power supply

Extra filter even more effective. Moving the switch to "Extra Filter" the background noises are strongly damped and the co-driver voice's louder to the driver. Since the driver's voice sounds lower to the co-driver, it is recommended that the Extra Filter is set to off during transfers.

Camera OUT (low or high level) or radio IN switch

WRC 03

- Specifically designed for roll-bars fitment
- ON/OFF control with the co-driver plug-in
- Separated volumes, 9 V standard power supply and 12 V available option
- Camera connection

AB0200

AB0102

TROPHY 2

- Individual volume controls
- 9 Volt battery o 12 Volt optional adapter
- Camera connection
- ON/OFF led
- High quality metal jacks
- Special design for roll-bar fitting

AIR SYSTEM KITS

The exclusive Stilo **Top Air System** takes fresh air to the driver's head and nose.
The Top Air System can be fitted onto ST5 Formula and GT models.

SHORT MODULAR TOP AIR KITS

YA0892
Modular short top air for Venti WRC and ST5 with main adapter. To be used with YA0895 or YA0896

YA0896
Modular straight fitting with Ø 32mm connection. Compatible with Maglock® connector

YA0895
Modular 90° angled fitting with Ø 32mm connection. Compatible with Maglock® connector

SHORT TOP AIR KITS

YA0889
Top Air System for Venti WRC and ST5 with oval connector

YA0897
Top Air System for Venti WRC and ST5 with smaller round connector

MODULAR TOP AIR KITS

YA0893 small shell
YA0894 large shell
Modular top air for ST5 with main adapter. To be used with YA0895 or YA0896

YA0896
Modular straight fitting with Ø 32mm connection. Compatible with Maglock® connector

YA0895
Modular 90° angled fitting with Ø 32mm connection. Compatible with Maglock® connector

YA0856 large shell
Adjustable Top Air System for ST5 with oval connector

YA0852 small shell
YA0858 large shell
Adjustable Top Air System for ST5 with smaller round connector

YA0714
45° cuff for Ø 1.5 inches to helmet Top Air oval hose

SIDE AIR KIT

YA0653
Integrated air coupling for Ø 20 mm tubes

YA0639
Coupling for YA0653 up to Ø 32 mm tubes

YA0600 Inner side of the helmet comprising
- **YA0601** Bite valve in silicon rubber with anti-backflow system
- **YA0602** Water tube
- **YA0603** Male quick coupling

YA0605 Hydration bag comprising
- **YA0604** Female quick coupling

INTEGRATED DRINKING SYSTEM

ST5 is homologated with a drinking system integrated. The silicon tube with bite valve is installed inside the helmet, where a dedicated housing channel in the cheek pads connects it to the shell plug and the female quick coupling installed on the outside.

FRONTAL DRINKING SYSTEM

ST5 is prepared for the frontal installation of the drinking system. Both left and right shell front grids can be opened for the tube to pass through and meet the dedicated passage in the internal chin pad.

RADIO CONNECTIONS

RADIO TO HELMET INTERFACE

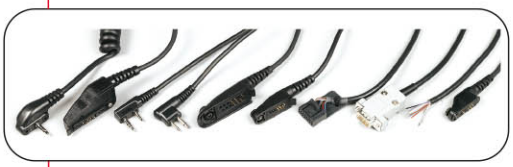
Wired interface connecting the helmet to a car radio, comprising the interchangeable steering-wheel PTT button. Ready to be used with the radio connection wirings shown here below with part numbers YD0202 to YD0211.

CG0007

RADIO WIRINGS

The CG0007 helmet interface and the universal track headsets CD0212 connects to the radios through the dedicated radio wirings. Available for the following models:

YD0202 similar to VERTEX Vx-160, Vx-180
YD0203 similar to KENWOOD TK-2140/2180/3140/3180
YD0204 similar to KENWOOD TK-2160/2170/2202/3160/3170/3201/3202
YD0205 similar to MOTOROLA GP300, MOTOROLA CP Series
YD0206 similar to MOTOROLA GP320/340/360/380
YD0207 similar to MOTOROLA GP328
YD0208 similar to MOTOROLA GM350
YD0209 similar to VERTEX Vx-2200
YD0210 Universal
YD0211 ICOM IC-F51



TRACK HEADSETS

Allowing communication with the car from the pit, these headsets come with adjustable earmuffs for noise reduction. Integrated PTT button, flexible micro-holder, noise cancelling microphone. Ready to be used with the radio connection wirings shown here above with part numbers YD0202 to YD0211.

CD0212

CUSTOMIZED RADIO SYSTEMS

The radio kit is the basic configuration for the communication via radio between one car and the engineer at the box.
The driver will have one radio, the connection wirings to his helmet, a car antenna and the PTT button to decide when to start and stop the communications. The engineer instead will have a portable radio with antenna and belt clip, one headset with a noise cancelling microphone and the connection cable for the portable radio.
The communication can also be extended from one engineer to more people at the box.
Radio kits can be customized upon request to make them suite the Team's different needs.

Contact our customer service at info@stilo.it for enquiries.

CQ0000CUST

VERBACOM CLUB

How it works

Verbacom offers drivers a cost effective and very efficient car to pit communication system by using mobile phones.
The Pit wall phone calls the car phone before the car starts, the car unit is programmed to automatically answer and the phone call is kept open keeping the car and Pit unit continually connected until switched off. The communication between units is always open, the pit crew press the push to talk button on the headset to transmit to the driver, whilst the driver can simply speak without pressing any button thanks to the digital noise cancellation that cancels all background noises. If for any reason the signal is lost and call is dropped, the pit phone automatically calls the car which answers it for the driver. It is as easy as that.

Available versions

CQ0008

1 Pit Single Headset

CQ0009
1 Car kit
1 Pit Single Headset
1 Pit Double Headset

CQ0010
2 Car kit
1 Double Headset

Car kit

The club unit is totally transportable for use in any vehicle or kart. The main Bluetooth unit CG0010 is self-powered and connects to a mobile phone (not included) which is mounted in the car. This unit has volume controls and a visible system status light for the driver, and also an on/off switch. This weighing just 66 gr and measuring 74 x 47 x 15 mm it is extremely small and light.
Helmet wiring YB0307.2 with an extension cable connects into the driver's helmet (AE0300 and AE0315 are required should your helmet have no wiring).

CG0010

YB0307.2

Pit wall kit

Noise reduction headsets are self powered and have either a single or double Bluetooth unit subject to the system you buy.
CD0003 and CD0004 connect to a mobile phone (not included) by Bluetooth for communication with the car, or wirelessly to the second pit headset.

RIB & CHEST PROTECTORS

Stilo reinvents karting safety products by introducing the innovative and patented Carbon Curva technology in the body protectors series. Flexibility adds up to the well known lightness and high resistance features of carbon fiber. The structure of the device worn by the driver ensures a reduction of the severity of injuries to the chest in the kart seat. Thanks to its exclusive production system, the Stilo rib protector offers the highest comfort to those who wear it.
Equipped with adjustable braces for a perfect fitting at all heights and body types, from kids to adults, Stilo Carbon Curva safety devices are 100% made in Italy.

CARBON CURVA 8870

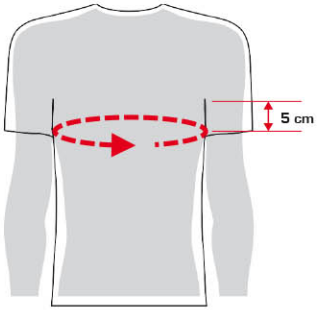
Homologated according to the FIA 8870-2018 (KARTING BODY PROTECTION) regulation. The device includes the 2 following components: Chest protection: it's the part of the device covering the frontal area of the chest of the user - Rib protection: it's the part of the device covering the rib area of the user.

HOW TO CHOOSE YOUR SIZE

To make sure the rib protector performs at best, it is crucial to choose the correct size (see chart below) and to wear it properly.

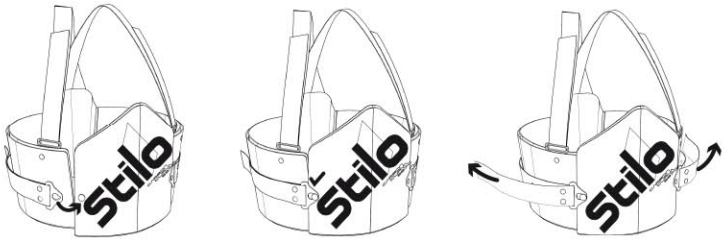
CARBON CURVA 8870 SIZE CHART

	DRIVER'S HEIGHT	RECOMMENDED CHEST CIRCUMFERENCE
AS0002XS	116 - 134 cm	58 - 68 cm
AS0002S	134 - 152 cm	62 - 72 cm
AS0002S+	134 - 152 cm	67 - 77 cm
AS0002M	152 - 170 cm	72 - 82 cm
AS0002L	170 - 188 cm	85 - 95 cm
AS0002L+	170 - 188 cm	90 - 100 cm



HOW TO WEAR IT

To make sure the rib protector performs at best, it is crucial to choose the correct size (see chart below) and to wear it properly. The device needs to be worn under the suit and, once the blocking system has been closed, the belts need to be fastened correctly and firmly (see the following images).



CARBON CURVA

These cutting edge protectors result in a flexible fit following and adapting to the drivers' body, protecting them from impacts without limiting movement or breathing.

Available in the following sizes:

AS0001S small
AS0001M medium
AS0001L large
